Dear Mr. Peh Lam Hoh,

This letter is to express our sincere thanks and appreciation for the technical services assistance rendered by Sing Swee Bee Group and its subsidiaries. The assistance from your staff was instrumental to the successful trial loading of LNG from LNG plant into ISO tanks in PT Badak NGL, as well as for the successful trial loading of LNG from ISO tank to the 500 litres Liquefied Gas Tanks at Berau Mining site to power the Gas Driven Generators.

The instructions and practical training provided at the trial sites has greatly improved our understanding in handling and carrying out future LNG refilling tasks.

Thank you and we look forward to working with you on another LNG transportation and refilling in the future.

Sincerely Yours,
LNG Sales Operation
General Manager
